OC-0692-86
17 July 1986

MEMORANDUM FOR: Deputy Director for Administration

25X1   FROM:

Director of Communications

SUBJECT: Weekly Report

25X1

     2. A software program developed by an OC employee for troubleshooting a Wang workstation printed circuit board is beginning to pay dividends. Two boards, one of which was received defective from Wang, have been repaired. Under the maintenance contract, the specific boards would cost $500 each if returned to the vendor for repair.

13. MERCURY Program:

25X1
25X1
        a. A meeting was held on 8 July [ ] between the MERCURY Program Office and OIT. The purpose of the meeting was to commence discussion and planning concerning OIT operational requirements and the potential application of MERCURY subsystems to meet these requirements.

        b. Appropriate representatives from OIT were briefed on 9 July on the MERCURY Program. MERCURY capabilities and program status were presented with particular emphasis on subjects relating to OIT network planning.

        c. A detailed review of all Software Problem Reports (SPR) for the MERCURY packet switch was conducted with the contractor. The emphasis of the review was to prioritize contractor efforts involving the SPRs. Testing of the latest software release continues in preparation for formal acceptance testing.
